## Reference Letter

**29 March 2023**

Dear Hiring Manager,

I am writing this letter to recommend Ismayil Abdullahzade for any future opportunities that may come his way. Ismayil Abdullahzade worked under my supervision as a frontend developer, and I must say that he was an asset to our team.

Throughout his tenure at our company, Ismayil Abdullahzade demonstrated his excellent technical skills in frontend development, which were evident in the high-quality work he produced. He frequently exceeded expectations and delivered results that exceeded our clients' expectations.

In addition to his technical expertise, Ismayil Abdullahzade demonstrated exceptional communication and teamwork skills. He was always willing to share his knowledge and collaborate with his colleagues to deliver optimal results.

Unfortunately, due to changes in our business focus, we no longer had projects focused on frontend development, and Ismayil Abdullahzade was laid off. However, I can confidently say that Ismayil Abdullahzade was an excellent employee who was dependable, reliable, and professional. He consistently demonstrated a positive attitude and a willingness to take on new challenges, which made him an asset to our team.

I recommend Ismayil Abdullahzade for any future opportunities and am confident that he will make a valuable contribution to any organization lucky enough to have him on board.

Sincerely, Eyyub Zeynalov  
Manager of Support and Development Department at A+A Security  
Email: Eyyub.Z@aplusa-security.com
